LANSDALE, PA (October 16, 2007) – Keystone Asset Management announced today that Jason Klementisz has been promoted to Director of Information Technology at the corporate office. In this capacity, Jason will be responsible for the technical design, configuration and implementation of local and wide-area network solutions along with systems analysis and project planning. He will report to Jane Hennessy, Executive Vice President.

In addition, Keystone announced the promotion of Roman Hryhorchuk to Property Valuation and Vendor Administration Manager. In this role, Roman will be responsible for the management of staff involved in providing property evaluations (Broker Price Opinions, Appraisals and AVM's), quality control and timeline exceptions. He will oversee the vendor administration database ensuring timelines and effectiveness. Roman will report directly to Tom Driver, Director of Operations.

“Jason and Roman are competent leaders who will play an integral role in continuing to build relationships across our vendor network,” said Jane Hennessy, Executive Vice President of Keystone. “We are proud to have them as part of our management team.”

**About Keystone Asset Management**

Keystone Asset Management is nationally recognized for providing superior client-driven services that address the needs of REO Marketing, Default Management and Property Valuation. Its success stems from continued investment in professional staff, advanced technology and strategic alliances.
